

Future of transport biofuels in the Nordics

Time: Wednesday 27 September at 09:30–11:00 EET (08:30–10:00 CET)

Location: fully online at Zoom

Description: Biofuels have been one of the key tools to cut emissions from road transport in the Nordic countries. However, concerns about fuel prices and sustainability have led to some countries revisiting their plans. The webinar discusses the future of biofuel blending obligations and the alternatives Nordic policymakers have available.

Programme

- 09:30 *Opening and technical issues*
Oras Tynkkynen, Tyrsky Consulting
- 09:35 *Welcoming words*
Steering group/NCM representative (TBD)
